

OncoLogix - Case Report

Patient Details

Name: Arjun Mehta
Age: 58
Diagnosis: Lung Cancer

Doctor Details

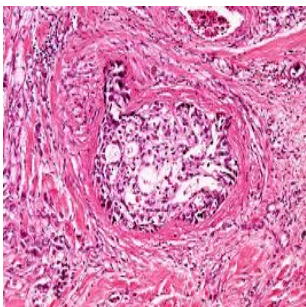

Name: Bhargav Gohel
Specialization: lung cancer
Experience: 12 Years
Email: gohelbhargav02@gmail.com

Hospital Information

Name: Apollo Cancer Institute
Contact: +91 98234 56789
Email: apollo.cancer@example.com
Location: Ahmedabad, Gujarat, India

Treatment Details

Treatment Given: Diagnosis involves biopsy, CT scan, and genetic testing. Early-stage cases undergo surgery followed by chemotherapy. Advanced cases receive chemotherapy, radiation, targeted therapy (EGFR/ALK inhibitors), or immunotherapy. Regular follow-ups with CT scans and blood tests ensure progress monitoring and adjustments in treatment of Lung cancer.
